

Bautino base, Mangistausky area; Adzhip-KSO

Field of Activity

Servicing of naval warfares and base for storages of oil products

User

Bautino bay and Bautino's located in 130 kilometers from Aktau the small settlement, territorially treat the Tupkaragansky region of Mangistausky area. In a bay are located base on collection of waste of the Adzhip KCO oil company, Aktau's branch international sea trade port, also such companies, as "Tenizservice", "Enka Inshaat" and "Caspian Sea service Group". Through Bautino's port the international cargoes necessary for the oil companies are dispatched. The main transported freight — is a brick, a shelly unit and other construction materials. Annually the port passes to 150 thousand tons of freight. In the winter sea water near a bay freezes. Thickness of ice constitutes 20 — 30 centimeters, in other years are reached by 80 centimeters. Round a bay a large number of the sunk and old vessels accumulated. The earth round a bay is in ownership of various companies.
