The Residence of the President

Business Objective

The administrative board ordered conference systems for several halls for meetings on the highest level also with the foreign delegations.

Solution:

CCS 800 Ultra and DCN conference systems were chosen for these halls.

The special feature of this project was that the microphones were installed into the exclusive hand-made tables which are the pride of the Residence.

Result

« During all the terms of the exploitation the system acquired a reputation of ideal work, high quality of sound, easiness in managing and high standards of security.»
