

“LAGUNA” hotel complex, Aktau

Field of Activity

Hotel business

Task

Soon the hotel in which it was necessary to develop the project will be open and to install security systems. We want to make stay of guests most safe and comfortable

Decision

In case of the solution of this task, we installed system of the automatic water fire extinguishing (Viking), automatic gas fire extinguishing (Race car, Orion) and automatic fire alarm (Bosch fpa-5000)

As were established system of the speech notification (Bosch Plena) which can serve for translations of background music and for the notification of guests about emergency.

Installer

GSI-Kazakhstan
