Industry

The Ministry of Finance of the Republic of Kazakhstan is the central executive institution which implements the management and intersectoral coordination in its sphere.

End User:

JCS "Kyzmet"

The field of activity of this JCS is exploitation of public buildings and supply functions for the Ministry of Finance of the Republic of Kazakhstan and the Ministry of economics and planning of the Republic of Kazakhstan.

The 12 floor administrative complex is not only an example of unique architecture but also very complicated in technical aspect.

Business objection:

To install conference systems with the possibility of simultaneous translation in 2 halls of the building.

Solution:

The key moment in choosing the equipment was the attractive design in combination with the simple control, so that's why it was decided to install

CCS 800 system which provides all functions necessary for control of the equipment necessary for the conferences with the participation of foreign representatives. The system is also complemented with the possibility of simultaneous translation to several languages.

Result:

Conference systems are used for holding meetings of the committees and other important official events.
