

Toyota Center in Atyrau city

Industry:

Toyota's dealer

End User:

Toyota Center in Atyrau city is an official department of Toyota Center Zhetysay (Almaty) in Atyrau city and the first department in the Western Kazakhstan which has a status of official dealer. The Center consists of demonstration room, spare parts & accessory warehouse and service.

Business objection:

During the reconstruction of a building it was found out that there was a necessity to update all the systems in accordance with the modern requirements of security and exploitation.

Solution:

Public address and radio systems correspond to EVAC BS 5839 –PLENA standard which is intended for transferring sound and voice messages and also for transmission of music in service rooms and show room.

The installed CCTV system is intended for security functions (the territory is watched by special staff). The system provides recording of all images of day and night regimes of cameras with the help of Divar. It also provides showing images from service rooms on separate monitor in host rooms for clients.

Result:

All systems are updated and supplemented according to modern requirements and are the most producible and convenient in exploitation.
